WATER ATLAS

WASTEWATER ATLAS

STORMWATER ATLAS

This application has been developed for the City of Tulsa, Engineering Services Department to distribute atlas pages to city staff and authorized users in digital form.

Included in the atlas distribution are water, wastewater, stormwater, paving, address, and base map pages. Each page is typically a one-half section (one mile east-west by one-half mile north-south). Page numbers were assigned beginning in the downtown area and extending in a spiral manner outward to include the entire mapping area.

A user may access the atlas pages by clicking on one of the red atlas page numbers via this index map.

In this version there are limitations to the functionality of the application. If you notice any errors or inconsistencies while using this application, please record the details of such error or inconsistency and send to engatlas@cityoftulsa.org
